

Modeling of the Atmosphere and Solar Radiation (MATRAS) **(TEP-220)**

Coordinator: Dr. Joaquín Tovar Pescador (jtovar [arroba] ujaen [punto] es)

The “Modeling of the Atmosphere and Solar Radiation (MATRAS)” research group carries out its activity in the field of meteorology and renewable energies.

Research lines:

- Solar and wind resource – solar and wind energy
- Environmental engineering
- Renewable energies
- Climate change
