## **Modeling of the Atmosphere and Solar Radiation (MATRAS) (TEP-220)**

Coordinator: Dr. Joaquín Tovar Pescador (jtovar [arroba] ujaen [punto] es)

Banner with images of a sun in space, wind turbines, some clouds, and a view from a satellite of a mountainous an

The "Modeling of the Atmosphere and Solar Radiation (MATRAS)" research group carries out its activity in the field of meteorology and renewable energies.

## **Research lines:**

- Solar and wind resource solar and wind energy
- Environmental engineering
- Renewable energies
- Climate change
